

COMPANY PROFILE

OUR COMMITMENT

We at **FINE MATTRESS**, committed to produce a high-quality mattress that guarantees a comfortable and enjoyable sleep to our clients. Our fully automated production which is considered as the latest technology in mattress manufacturing, allow us to customize our products to meet all the international standards and to comply with our client's requirements.

OUR SERVICES

QUALITY ASSURANCE

After the Manufacturing process, our products are rigorously tested for pressure, elasticity and resilience to assure that they meet the highest global quality standards.

PACKING STANDARD

Our world class automated packing machines ensure that products are free from any external bodies for pretty hygiene and superior quality.

AFTER SALES SERVICE

We offer a dedicated after sales service to swiftly address any kind of customer grievances.

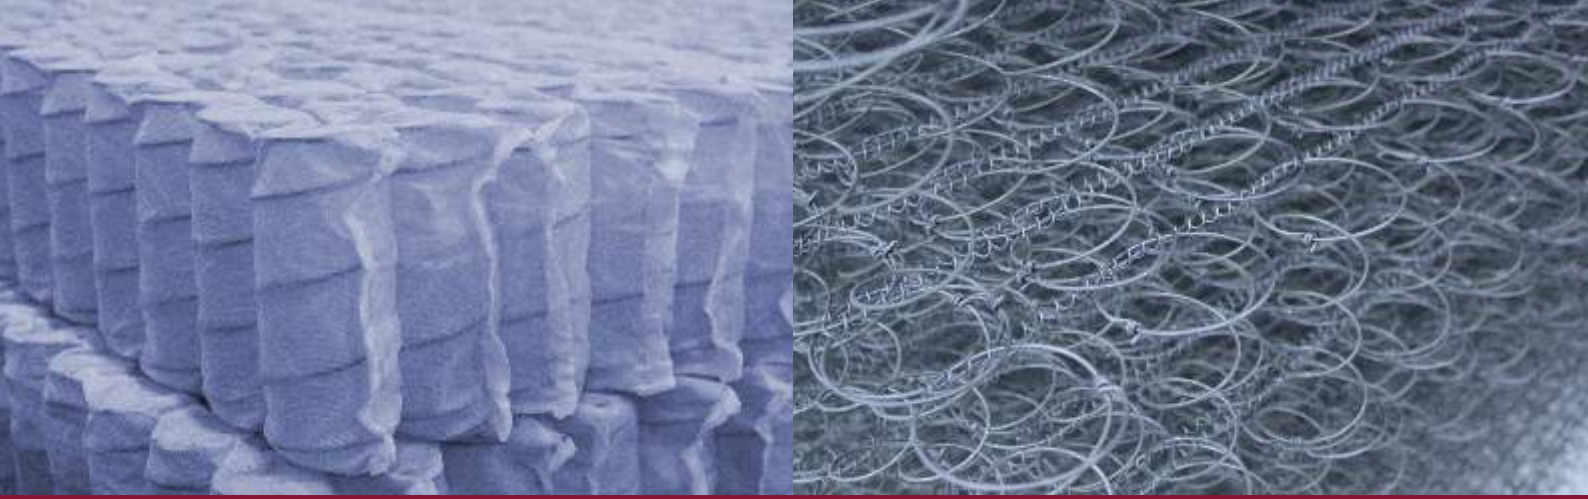

OUR CLIENTS

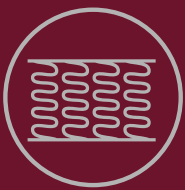

OUR PARTNERS

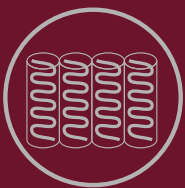

OUR PRODUCTS

BONNELL SPRING MATTRESS

Bonnell spring systems are the most traditional type of inner spring mattresses. It has an hourglass shape Bonnell coil interconnected with a mesh of metal, which provides internal support for a durable feel.

POCKET SPRING MATTRESS

Pocket springs add more contour to your sleep as the coils were individually wrapped in pocket fabric, and stitched all together. These were working independently as each spring reacts to point pressure in the mattress area.

BED BASES AND HEADBOARDS

Aside from our mattresses, we also provide customized bed bases and headboards of your choice or that fit your preference.

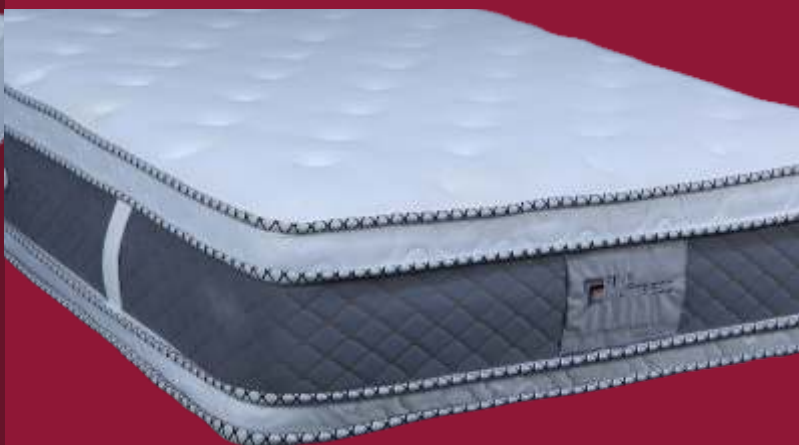

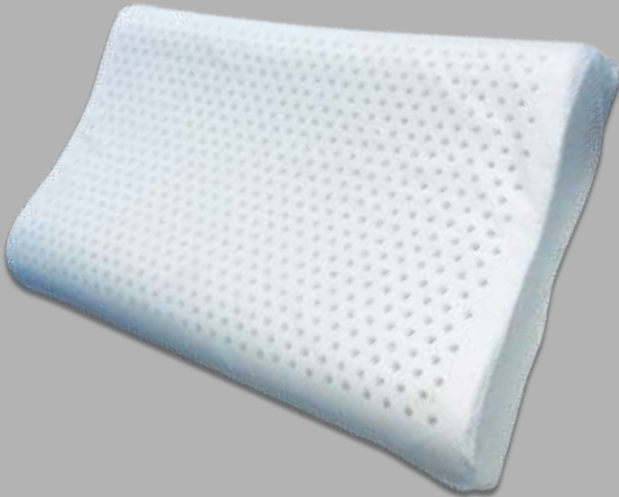

BEDDING ITEMS AND ACCESSORIES

We also offer a wide range of bedding items and accessories such as pillows, bed sheets, mattress toppers, blankets, and more!

OUR PRESENCE

FINE MATTRESS has proudly showcase our products in exhibitions both locally and globally.
