Dr. Tarek Ibrahim	4011.5727	-	TIbrahim6@hamad.qa
Dr. Hala Sonallah	4011.5727	-	hsonallah@hamad.qa

PATIENT POPULATION

The patients seen on this rotation are outpatient at Al Wakra Hospital. The patients (225 inpatient beds) are receiving hemodialysis associated with their End Stage Renal Disease. The majority of patients attend twice to three times per week and are receiving continuous care from specialized health care providers (consultant and specialist physician, clinical pharmacist, nurses and a dietitian). Most of the patients have multiple co-morbidities and taking a high number of medications.
