Revising Fragments and Run-ons

DIRECTIONS The following paragraph is confusing because it contains some sentence fragments and run-on sentences.

- Identify the fragments by underlining them once.
- Identify the run-ons by underlining them twice.
- Rewrite the paragraph, revising each fragment and run-on to make the meaning clear.

Scuba diving is a popular pastime. *Scuba* is an acronym it stands for "self-contained underwater breathing apparatus." In the fifteenth century, Leonardo da Vinci designed an underwater diving suit. Functional equipment not developed until much later. The eighteenth century brought practical devices for breathing under water. Such as diving suits and diving bells. Wearing these suits, divers could breathe under water, their mobility was limited. The twentieth century had Jacques Cousteau and Émile Gagnan to solve the problem. Perfected the aqualung. The aqualung is a cylinder of compressed air; it is worn on the back and connected to a mouthpiece. With an aqualung, divers have both air and mobility. Since 71 percent of the earth's surface is covered by oceans. Scuba diving opened up a whole new world.
Although penguins look clumsy on land, they are graceful in the water. Their bodies are perfectly suited for swimming and diving. They have a streamlined torpedo shape. Their wings are shaped like flippers, and penguins use them to propel themselves through the water at speeds up to 30 miles per hour. Use their webbed feet to steer. Most penguins can even swim like porpoises, leaping out of the water to breathe and then diving back in with one graceful motion. Penguins frequently need to dive deep to catch prey. Sometimes descending to depths of over a thousand feet. The water pressure can be great enough to collapse lungs. Penguins have special air chambers in their bodies. When a penguin dives, the chambers squeeze, air is forced into the lungs. The extra air keeps the lungs from collapsing. The chilly waters that penguins prefer would be too cold for most birds. Penguins are insulated by waterproof feathers and a thick layer of fat. Penguins more than make up for being awkward on land, by being perfectly suited for the water.
Lesson 10

Fragments and Run-Ons

Sentence fragments and run-on sentences are writing errors that can make your writing difficult to understand.

A **sentence fragment** is part of a sentence that is written as if it were a complete sentence. A sentence fragment is missing a subject, a predicate, or both.

**Fragments**

- The Maya, a Native American people. (missing a predicate)
- Developed a magnificent civilization. (missing a subject)
- In southern Mexico and Central America. (missing both)

**Revision**

- The Maya, a Native American people, developed a magnificent civilization in southern Mexico and Central America.

A **run-on sentence** is two or more sentences written as if they were a single sentence. When you combine two sentences with a conjunction, use a comma before the conjunction.

**Run-on**

- The Maya lived in Central America their descendants still live there.

**Revision**

- The Maya lived in Central America, and their descendants still live there.

B. Recognizing and Revising Fragments and Run-ons
Read these notes one student wrote to use in a report. First figure out what the writer was going to say, and then use the information to write a paragraph. Use complete sentences instead of fragments and run-on sentences. Add any words that you need to make the paragraph understandable. Use a separate piece of paper, if necessary.

Braille. A code of small raised dots on paper that can be read by touch. Louis Braille, a 15-year-old French student. At the National Institute for the Blind in Paris. Developed this raised dot system in 1824. Braille worked out an alphabet and numerals using this system he even figured out how to use the raised dots to write music. Read this system by running their fingers over the dots. Each Braille page has words written on both sides of the paper, dots on one side do not interfere with the dots printed on the other side. This system of writing for the blind. Named after Louis Braille.
