# Download Universal Capture Personal

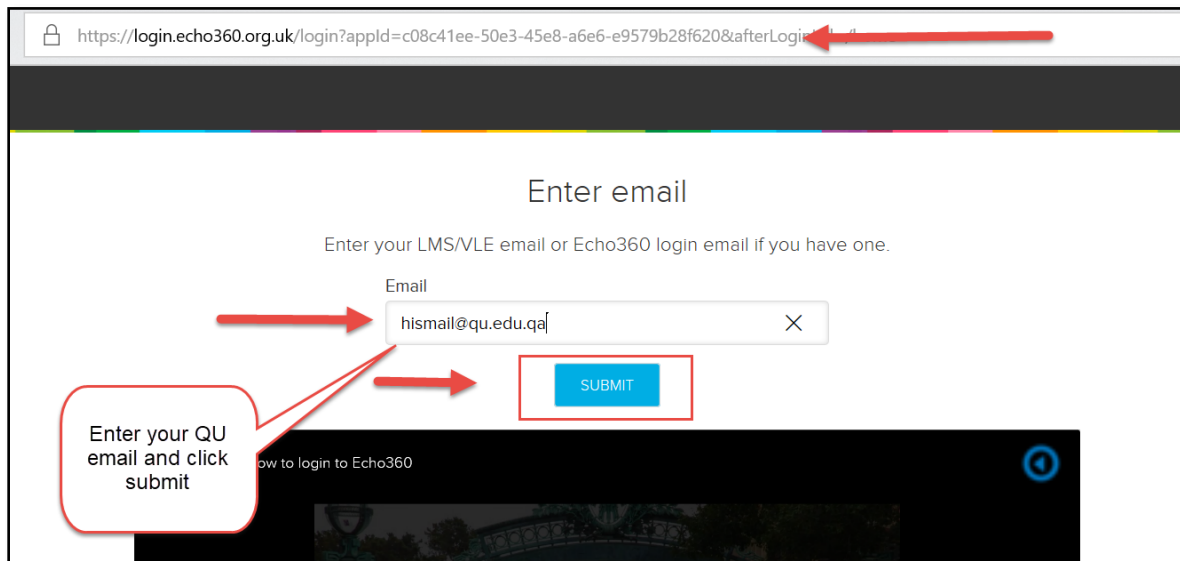

## Echo 360 Universal Capture

Echo360 Universal Capture is a stand-alone application that runs on either Windows or Mac, and allows you to create recordings to supplement in-class materials. It is best suited for instructional content capture outside the classroom. It is typically installed on faculty laptops and provides a faculty-driven workflow. It captures audio, local screen and webcam video. It is supported on both Windows and Mac computers

### Download and Install

To download, Echo360 Universal Capture onto your computer, go to <https://echo360.org.uk/>.

- Enter your QU email and click submit.

- Click on the Account Settings  and access Downloads.

- Download the appropriate version of Universal Capture Personal.

The screenshot shows the Echo360 Downloads page for Universal Capture: Personal. The page title is "Downloads" and the product name is "Universal Capture: Personal". The description states: "Echo360 Universal Capture is the simplest video application for education that provides identical capabilities, and a consistent user experience. Personal mode is a stand-alone version of the Universal Capture application. Recordings are created on an ad hoc basis and can be downloaded by default. Any combination of video, desktop, and audio can be captured." Below the description are two download links: "Mac Download version v6.0.68317784" and "Windows Download version v6.0.68317784". Two callout boxes are present: one pointing to the Mac Download link with the text "For Mac users download Mac version" and another pointing to the Windows Download link with the text "For Windows users download Windows version".
