

Registration starts on
June 06th, 2021
Grade: 11 and 12

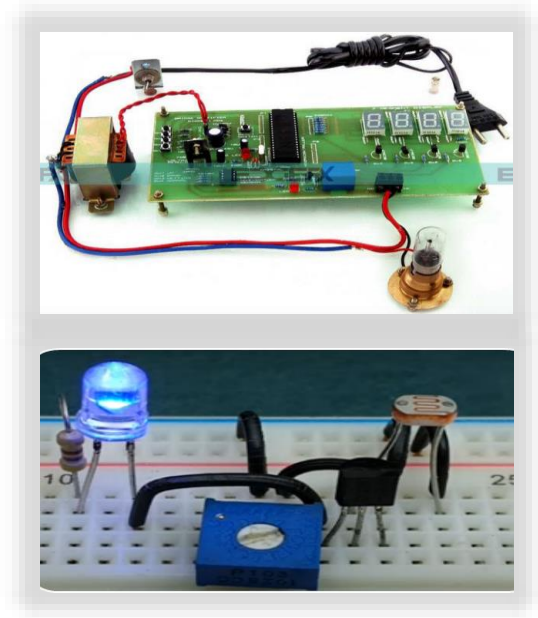

Online Summer Course
Title: High School Electronics
From June 17 to June 24, 2021

Contact Information
Email: QUYSCworkshops@qu.edu.qa
Phone no: 40177358 (Ms. Nitha Siby)

This course is designed to give students an opportunity to develop an understanding of electronic engineering and its applications

The participants will learn:

- 1 Essential electronic components' working principles.
- 2 Cascading of multiple electronic components.
- 3 How the logic gates and electronic components are being interfaced in integrated circuits (ICs)?
- 4 Integration of sensors and electronic circuits through design projects.
- 5 Design thinking skills through reflective activities and online discussions.
