

ENERGYCON 2024

IEEE INTERNATIONAL ENERGY CONFERENCE

ADVANCING SUSTAINABLE ENERGY ECOSYSTEMS:
INNOVATION, TECHNOLOGY AND CLEAN MOBILITY

MARCH 4-7, 2024
DOHA, QATAR

ABOUT:

- The IEEE International Energy Conference (ENERGYCON) is an IEEE Region 8 flagship International Conference that covers a broad range of electric power and energy systems topics, will continue the tradition of the past editions organized in Bahrain, Italy, Croatia, Belgium, Cyprus, Tunisia, and Latvia. The 8th edition of the conference will take place in Doha, Qatar on 4th – 7th of March, 2024.
- ENERGYCON is dedicated to experts carrying out research focused on energy and power systems. It has already become one of the central events for discussion on the application of electronics, instrumentation, information and communication technology to the energy industry. ENERGYCON provides an opportunity to scientists, professional engineers and engineering students to present their work, publish their results, exchange ideas and network for future scientific and industrial collaborations.
- Accepted Short and Full papers will be published in the conference proceedings if at least one author is registered and if the paper is presented at the conference (in compliance with IEEE rules). The short and full papers of the conference proceedings will be submitted to the IEEE Xplore Digital Library and in the Conference Proceedings Citation Index (CPCI) - an integrated index within Web of Science.

TOPICS:

- Power System Control, Protection and Risk Assessment
- Energy Economics and Policy
- Renewable Energy, Storage and Distributed Energy Systems
- Industrial Automation and Robotic Systems
- Advanced Digital Technologies for Energy Systems
