QU **Wireless Network**

USER GUIDE

How to Connect to Qatar University Wireless network

Qatar University provides wireless network access to students, faculty and staff.

This guide provides step-by-step instructions to register your device on the wireless network "QU User".

**Note: You can register a maximum of 8 devices to the QU Network.**

Step 1: Connect to QU User

On your device, search for the available network and connect to **'QU User'**.
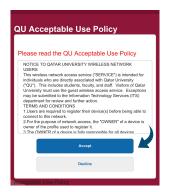

Step 2: Open a Browser

Launch any web browser *(e.g. Edge, Safari, Chrome)* and visit the Qatar university website: **http://www.qu.edu.qa**

Step 3: Sign in

Enter your QU Username and Password as per the below format and click **'Login'**.

Step 4: Accept and Register

Click **'Accept'** and **'Register'** on the next screen.

Step 5: Device Name

Provide a **Device Name** (e.g., iPhone15, Samsung phone, HP laptop) and click **'Continue'**.

Step 6: Registration Confirmation

A message will show that your device has been registered successfully.

⚠️ **Additional instructions for iOS devices:**

Turn Off the Private Wi-Fi Address feature

1- On your iOS device, open **'Settings'**.

2- Click Wi-Fi and select the active wireless connection **'QU User'** and click the info icon ⓘ next to the connection.

3- Click **'Private Wi-Fi Address'** and select **'Off'**.

4- Reconnect to **'QU User'** network for the change to take effect.
